

Acle A's Classic VW Campervan Hire Ltd COVID-19 Protocol

Acle A's Classic VW Campervan Hire Ltd completes the following actions in response to the UK Government coronavirus guidelines, and to the best of their ability ensure the health and safety of customers and staff members alike.

Prior to and after every hire:

- All vehicles are sprayed with Bio Blast, an interior sanitiser containing three powerful biocides proven effective against a wide range of pathogens including enveloped viruses. Bio Blast takes 20 minutes to work and leaves a protective film on all surfaces - each vehicle is left for a minimum of 30 minutes in preparation to the entrance of any other individual.
- All interior surfaces and touch points are cleaned and sanitised using hot soapy water and Ultra Ax Viricidal/Bacterial Disinfectant spray.
- Subsequent disinfection of all surfaces and touch points then takes place using a commercial grade Viricidal/Bactericidal chemical cleaner that complies with EN1276 and EN14467 regulations, and is effective against all enveloped viruses including Coronavirus and Influenza virus.
- All crockery and cookware is removed and thoroughly washed using antibacterial dish soap.

Social Distancing Measures:

- Due to current social distancing guidelines, we politely ask all customers to contact us prior to their arrival, enabling us to prepare and comply with Government recommended social distancing measures.

Sincerely,

Tom Hiller (Company Director)
